0583123449 | yasiralobaid@outlook.com | linkedin.com/in/yasir-alobaid-5346682b9 | github.com/yasir239

## EDUCATION

**Qassim University**

*B.S in Computer Science*

*Sep 2019 — Aug 2025*

## EXPERIENCE

**Software Developer Intern**

*Qassim University (QUIT)*

*Jun 2025 — Aug 2025*

- As a Software Developer Intern at the Deanship of Information Technology at Qassim University (QUIT), I contributed as part of a **5-member development team** on a University Course Scheduling System designed to improve course registration efficiency. I contributed to full-stack development using **Laravel, PHP, JavaScript**, and **SQLite**, integrated OpenAI API to support intelligent course-related features, and connected the system with student information APIs to fetch and manage student data dynamically.

## CERTIFICATIONS

**Large Language Model Bootcamp**

*Saudi Authority for Data and Artificial Intelligence (SDAIA)*

*Feb 2024*

**Building a REST API interface using Python and Django**

*Tuwaiq Academy*

*Aug 2024*

**Data Analyst Bootcamp: From Basics To Advanced**

*Udemy*

*Nov 2025*

Credential ID: UC-24e22533-47fd-460f-9fb2-b2defc5f6143

## PROJECTS

**Ticket Booking Platform** | Java Spring Boot, React, PostgreSQL, Docker, AWS

- Developed a **RESTful web application** using Spring Boot and React.
- Implemented **database transactions and concurrency control** to ensure data integrity.

**Riyadh Commercial & Metro Impact Analysis** | Python, PostgreSQL, PowerBI, ETL

- Built an end-to-end data processing **ETL Pipeline** using Python to clean, transform, and organize commercial datasets.
- Designed relational database schemas in **PostgreSQL** and wrote **SQL** queries to manage and extract data.
- Created visualizations and dashboards in **Power BI** to present key business insights.

## SKILLS

**TECHINICAL SKILLS:** Web Development, REST API, Data Sceince, Data analysis, Software Testing (Basics)

**Languages & Frameworks:** : Java, Python, JavaScript, SQL, HTML, CSS, Spring Boot, React.js

**Developer Tools:** Docker, AWS (Elastic Beanstalk, RDS), Git/GitHub, Maven, Postman
